
Martin Linde leaves the board of AcouSort for health reasons

Aegirbio announced yesterday that CEO Martin Linde is on sick leave. Martin Linde has also chosen to leave the board of AcouSort to focus on his recovery.

The Board will shortly convene an Extraordinary General Meeting to elect a new Board member to replace Martin. The company would like to thank Martin for his great commitment and strong efforts over the years and wishes him a rapid recovery.

About AcouSort

AcouSort AB (corporate registration number 556824-1037) is an innovative technology company focusing on developing products and solutions for integrated preparation of biological samples. With the help of sound waves, the company's products can separate blood cells, concentrate, purify and stain cells, exosomes and bacteria from biological samples. The technology of the company's products is acoustofluidics, where sound waves and microfluidics enable automated handling of samples in a range of application areas, from research on new biomarkers to the development of new diagnostic systems for near-patient testing – so-called Point-of Care (POC) systems. The company's commercialization strategy is based on the already proven business model of providing separation modules to diagnostic system manufacturers for integrated sample preparation as well as to continue the commercialization of the company's research instruments. With the help of the company's products and development of point-of-care tests, new diagnostic systems and treatments are enabled, addressing some of the most challenging disease areas of our time: cancer, infectious diseases and cardiovascular diseases.
