

## Gapwaves receives antenna prototype order from global tech giant

Gapwaves, a Sweden-based company with patented technology for millimeter wave waveguide antennas, today announced an order for 77 GHz antenna prototypes from a global tech giant. The order is for test and evaluation purposes with expected delivery during Q3 2020 and a value of ca 1.5 MSEK.

Gapwaves CEO Lars-Inge Sjöqvist comments:

"We are very excited about this order and the opportunity to present Gapwaves waveguide technology. Our customer is a true leader in technology innovation and we are very enthusiastic to provide a waveguide antenna representing high performance and compact form factors with sophisticated materials and manufacturing process."

### About Gapwaves AB

*Gapwaves (NASDAQ: GAPW B) originates from research conducted at Chalmers University of Technology and was founded in 2011. Gapwaves vision is to be the most innovative provider of mm-wave antenna systems and the preferred partner to those pioneering next generation wireless technology. By leveraging the disruptive Gapwaves technology we help pioneers in telecom and automotive to create highly efficient mm-wave antenna systems that contributes to re-defining everyday life. Gapwaves markets are e.g. mmWave in 5G telecom and automotive.*

*Gapwaves share (GAPW B) is traded at Nasdaq First North Growth Market Stockholm and G&W Fondkommission is appointed Gapwaves AB's Certified Advisor.*
