Where one or more shareholders decline this right, the next-largest shareholder shall be offered the corresponding opportunity. However, not more than seven shareholders shall be contacted. When a shareholder is contacted with a request of appointing a member in the Nomination Committee, the Chairman of the Board shall establish necessary administrative rules, such as a last reply date etc. In addition, the Nomination Committee shall observe what, from time to time, is stated in the Swedish Corporate Governance Code. The names of the four members shall be published as soon as they are appointed.

The majority of the members of the Nomination Committee shall not be Board members and the Chief Executive Officer, nor shall any other member of management be a member of the Nomination Committee. Unless the members agree otherwise, the Chairman of the Nomination Committee shall be the member representing the largest shareholder in terms of voting rights. The above principles governing the appointment and tasks of the Election Committee shall apply until the General Meeting of Shareholders decides to change them. It is the responsibility of the Election Committee, prior to the Annual General Meeting of Shareholders, to determine whether the Election Committee finds it necessary to propose any changes to the principles in question to the Annual General Meeting.

The Board of Directors' proposal regarding the allocation of the Company's results in accordance with the adopted balance sheet (Item 9b)

The Board of Directors proposes that the Company pays a dividend to the shareholders of SEK 1.00 per share with Monday 30 April 2018 as the record date. Given this record date, Euroclear Sweden AB is scheduled to pay the dividends on Friday 4 May 2018.

The Board of Directors reminds that the Company's total profits, according to the balance sheet as of 31 December 2017, amounts to SEK 86,867,523, and accordingly exceed the proposed total dividend of SEK 28,872,600 by SEK 57,994,923.

The Board of Directors proposed guidelines for remuneration to the senior executives (Item 14)

The Board of Directors proposes that the AGM resolves to adopt the following (unchanged) guidelines for remuneration to the senior executives for the period until the next AGM. Senior executives refer to the Chief Executive Officer and members of the Company's management.

The fixed salary shall consider the individual's area of responsibility, experience and performance and shall be reviewed each year. Variable salary is dependent on the individual's fulfilment of quantitative

and qualitative goals and can at the most amount to 100 percent of the fixed salary. In 2017, the variable salary in the Company's incentive program for the senior executives (five persons) amounted to approximately SEK 2,600,000.

The retirement age is 65 years. The Company offers benefits similar to the ITP plan. Dismissal pay and redundancy payment for a senior executive shall in total not exceed remuneration for 24 months.

The Board of Directors shall be able to deviate from the above guidelines should there be special cause to do so in individual cases. If such deviation occurs, the Board of Directors shall give notice about the deviation and put forward the reasons for the deviation at the next AGM.

The Board of Directors' proposal for resolution regarding authorization for the Board of Directors to decide on acquisition and sales of treasury shares (Item 15)

The Board of Directors proposes that the AGM authorizes the Board of Directors to, at one or more occasions and up to and including the next AGM, resolve to acquire and/or sell treasury shares, mainly in accordance with the following terms:

Acquisition may be made with cash payment on Nasdaq Stockholm or in accordance with a tender offer to all the shareholders. Acquisition of shares may not result in the total holding of treasury shares, at any time, exceeding ten (10) percent of all shares in the Company. Acquisition of shares on Nasdaq Stockholm may only be effected at a price within the currently effective registered price interval on Nasdaq Stockholm, meaning the price interval between the highest bid and the lowest ask price. Acquisition in accordance with a tender offer according to the above shall be effected at a price corresponding to at least the share price at the time of the offer with a maximum upward divergence of twenty (20) percent.

Sales of shares may only take place outside Nasdaq Stockholm, with or without deviation from the shareholders' preferential rights and with or without payment in kind or payment by way of set-off. Such sales may be made at a price in cash or value for obtained property corresponding to the price for the sold Company shares at the time of the sale, with a divergence found reasonable by the Board of Directors. The number of shares that may be sold should not amount to more than ten (10) percent of the total number of shares in the Company. Sales in connection with company acquisitions may be made at a market value as decided by the Board of Directors.

The purpose of the authorization above to acquire and sell treasury shares is to enable financing of acquisition of operations through payment with treasury shares and to continuously adapt the Company's capital and share structure and thereby contribute to an increase in value for shareholders.

For a valid decision of the Meeting in accordance with the Board of Directors' proposal above it is required that the decision is seconded by shareholders representing at least two thirds (2/3) of the casted votes as well as of the shares represented at the Meeting.

The Board of Directors' proposal for resolution regarding Incentive Program 2018/2021 and issue of warrants (Item 16)

The Board of Directors proposes that the AGM resolves to implement a long term incentive program (the "Incentive Program 2018/2021") for current and future members of the group management and key employees (the "Participants"). The proposal to implement an incentive program has been put forward as the Board of Directors assesses that it is important and in the interest of all the shareholders to create even greater participation for the Participants within the Company with regard to the Company's development. The "Incentive Program 2018/2021" is proposed to include a maximum of 15 participants.

In the light of the above, the Board of Directors proposes that the AGM resolves to implement the Incentive Program 2018/2021 and resolves to issue warrants in accordance with the following and that the AGM resolves to approve transfer of the warrants.

A. Issue of warrants

The Board of Directors proposes that the AGM resolves to direct issue not more than 630,000 warrants, which upon full utilization will increase the Company's share capital with no more than SEK 315,000. For the resolution, the following terms and conditions shall apply.

The right to subscribe for the warrants shall, with deviation from the shareholders' preferential right only belong to the wholly-owned subsidiary, NOTE Components AB, reg. no 556602-2116 (the "**Subsidiary**"), which shall transfer the warrants to the Participants according to item B below.

The reasons for the deviation from the shareholders' preferential right is to implement an incentive program whereby the Participants, through their own investment, shall partake of and aim towards a positive development of the Company during the entire period which the proposed incentive program covers, and that the Company shall be able to retain skilled and dedicated staff.

The warrants shall be issued, free of charge, to the Subsidiary.

The subscription for the warrants shall be made during the period commencing on 30 April 2018 up to and including 7 May 2018. The Board of Directors shall be entitled to extend the subscription period.

Subscription for shares through exercise of the warrants shall be made from the period commencing on 18 May 2021 up to and including 11 June 2021, with regard to, at each time, applicable insider legislation. Shares may not, however, be purchased during any such period when trading in the Company's shares is forbidden in accordance with Regulation (EU) No 596/2014 of the European Parliament and of the Council of April 2014 on market abuse (market abuse regulation) or any other equivalent legislation which applies at any given time.

Each warrant entitles the holder to subscribe for one (1) share in the Company at an exercise price corresponding to 130 percent of the volume-weighted average price for the Company's share on Nasdaq Stockholm during the period commencing on 26 April 2018 up to and including 16 May 2018. However, the exercise price may not be less than the share's quota value of SEK 0.50. Day without price quotation shall not be included in the assessment.

Warrants held by the Subsidiary and not transferred under item B below may be cancelled by the Company following a decision of the Board of Directors of the Subsidiary. Cancellation must be reported to the Swedish Companies Registration Office.

In order to fulfil the commitments arising from the Incentive Program 2018/2021, the Board of Directors proposes that the AGM authorizes that the Subsidiary may transfer to a third party or in another way dispose of the warrants in accordance with item B, below. Customary re-calculation term shall apply for the warrants.

B. Approval of transferring the warrants

1. The right to acquire warrants

The Participants right to acquire warrants shall be differentiated with reference to position, responsibility and working performance in the Company. However, each individual entitled to subscribe may not subscribe for more than 200,000 warrants each.

If Participant refrain in full or in part from acquiring warrants offered to them, such unacquired warrants shall be divided on a pro rata basis between Participants who have expressed their interest in acquiring additional warrants in writing. Participants who are entitled to an allocation may not come to acquire more than an additional 30 percent of the original number of warrants offered in this manner, however, not more than 200,000 warrants.

The Board of Directors shall ultimately decide about the allocation in accordance with the principles stated above, as well as the number of warrants offered to Participants.

The right to receive warrants requires that the Participant enter into a pre-emption agreement with the Company. Pre-emption will as a general rule be set at market price. In accordance with the pre-emption agreement, pre-emption, in particular cases, shall be set at a price equal to the minimum of (i) the Participant's acquisition value for the warrants or (ii) the market value of the warrants. Otherwise, the warrants are freely negotiable.

If the holder of the warrant does not wish to exercise all of the warrants and give a notice to the Company of this, the Company has, in particular cases, a right to repurchase the warrants from the holder. Acquisition of warrants shall be made to a price that at any time corresponds to at the maximum the market price. Repurchase of warrants may not, however, be made during any such period when trading in the Company's shares is forbidden in accordance with article 19 in Regulation (EU) No 596/2014 of the European Parliament and of the Council of April 2014 on market abuse (market abuse regulation) or any other equivalent legislation which applies at any given time.

Allotment of warrants requires that acquisition of warrants is legally possible and that acquisitions can be made at reasonable administrative and financial efforts.

The Company's Board of Directors will not participate in the Incentive Program 2018/2021.

2. Period of application

An application to acquire warrants shall be made on 18 May 2018. The Board of Directors is, however, entitled to extend the period of application to acquire warrants.

3. Application and allotment

The individuals entitled to acquire warrants are enabled to apply for warrants in lots equivalent to the maximum number of warrants that are offered, or reduced by lots of 1,000 warrants. Allotment shall be made in full lots of 1,000 warrants.

4. Price and payment etc.

The warrants shall be transferred at market terms and at a price which is established by a calculated market value for the warrants applying the Black & Scholes valuation model (the "**Warrant Premium**") which shall be calculated by the Board of Directors. The measurement period for the calculation of the Warrant Premium shall commence on 26 April 2018 up to and including 16 May 2018, or in the event the Board of Directors resolves to extend the subscription period in item 2 above, a corresponding measurement period in connection with the transfer.

The allotted warrants shall be paid for in cash no later than 25 May 2018. The Board of Directors is, however, entitled to extend the period of payment.

C. Further information about the issue and the transfer

1. Dilution

Upon exercise of all warrants in the Incentive Program 2018/2021 up to 630,000 shares (with reservation for any re-calculation), equivalent to around two (2) percent of the total number of outstanding shares and votes, may be issued. The calculation is based on the maximum number of shares and votes which can be issued divided with the total number of shares and votes after such issue. Upon full exercise of the warrants, the Company's share capital will increase with SEK 315,000.

Together with the outstanding warrants in Incentive Program 2017/2020, the total dilution corresponds to approximately four (4) percent of the total number of outstanding shares and votes.

2. Calculation of the market value

The current expected level of volatility of the warrants at time of the valuation have by the Board of Directors been estimated to be approximately 28 percent. At an estimated future level of volatility

during the term of the warrants at an equivalent level and under the assumption that the average value of the Company's shares during the period for the valuation of the warrants amount to SEK 26.00, wherein the exercise price for the warrants will amount to SEK 33.80 and considering the Company's dividend policy, the value per warrant amount to SEK 1.39 according to the Black & Scholes valuation model. The Board of Directors' valuation of the warrants will be examined by the independent appraiser PwC.

3. Costs for the Company and effect on key ratios etc.

The Incentive Program is expected to have a marginal effect on the Company's earnings per share. Given that the warrants shall be transferred at a price corresponding to the market value of the warrants, no particular social security costs will arise for the Company in connection with the transfer of warrants to the Participants.

The total costs, including other expenses for the Incentive Program 2018/2021 related to fees to external advisors, valuation, own work and for administration of the program, are estimated to amount to approximately SEK 200,000 during the term of the incentive program.

4. Preparation of the matter

The principles of the Incentive Program 2018/2021 have been prepared by the Board of Directors (also the Company's remuneration committee), in consultation with external advisors. The Board of Directors has, thereafter, decided to present the proposal to the AGM. Except for the individuals who have prepared the matter according to the instructions from the Board of Directors, no employee which could be included in the incentive program have taken part in the draw up of the terms and conditions.

5. Previous implemented program

There is a previous implemented incentive program; 2017/2020. The AGM held on 20 April 2017 approved the Board of Directors' proposal regarding the incentive program for key employees, the resolution to issue 600,000 warrants 2017/2020 and the resolution to approve the transfer of warrants. Upon exercise of all warrants up to 600,000 shares may be issued, equivalent to a dilution around two percent of the total number of outstanding shares and votes. 600,000 warrants have been subscribed. The subscription price was fixed at SEK 23.30 per share.

The Company does not have any other previous implemented incentive programs.

D. Authorizations and majority requirements

The AGM authorizes the Board of Directors of the Company to execute the resolution pursuant to item A above and to make sure that the Board of Directors in the Subsidiary carry out the transfer of warrants pursuant to item B above.

The Board of Directors, or the one who the Board of Directors appoints, is authorized to make minor adjustments required for the registration at the Swedish Companies Registration Office.

A resolution to approve the present proposal is valid only where supported by share-holders holding not less than nine-tenths (9/10) of both the shares voted for and of the shares represented at the AGM.

Shareholders' right to request information

Pursuant to Chapter 7 section 32 and 57 of the Swedish Companies Act (Sw. aktiebolagslagen) the Board of Directors and the Managing Director shall, if any shareholder so requests and the Board of Directors deems that it can be made without substantial damage to the Company, at the Meeting provide information regarding circumstances which may affect the assessment of a matter on the agenda and circumstances which may affect the assessment of the Company's economic situation.
