

## OXE Marine AB (publ) issues warrants to the European Investment Bank

The board of directors of OXE Marine AB (publ) (the “**Company**”) has resolved, as authorised by the extraordinary general meeting on 30 July 2019, on a directed issue of in total 14,726,154 warrants to the European Investment Bank (“**EIB**”). EIB has subscribed for all issued warrants.

In the issue, 14,726,154 warrants 2020/2039 Series 1 have been issued with deviation from the shareholders’ preferential rights. The reason for the deviation from the shareholders’ preferential rights is to fulfill the conditions for drawdown of Tranche B under the credit facility agreement entered into between the Company and the EIB on 5 July 2019. The warrants are issued without consideration and each warrant entitles to subscription of one new share in the Company at a subscription price equivalent to the quotient value per share at that time. The subscription price has been determined after negotiation between the parties on the above-mentioned credit facility agreement, as part of the reimbursement for the drawdown of Tranche B. The number of issued warrants corresponds to 7.59 percent of the fully diluted share capital of the Company on 12 March 2020, excluding the previously resolved incentive programs for employees. The total number of warrants issued to the EIB for drawdown of Tranche A and B corresponds to 15 percent of the fully diluted share capital of the Company on 12 March 2020, excluding the previously resolved incentive programs for employees.

Subscription of shares upon exercise of the warrants may be made during the period commencing on the date on which the issue resolution is registered with the Swedish Companies Registration Office (Sw. Bolagsverket) up to and including 31 December 2039.

If all warrants are used for subscription of new shares, the Company’s share capital will increase with SEK 441,559 and the number of shares with 14,726,154.
