FINANCIAL STATEMENTS FOR THE PERIOD TO 30 TH SEPTEMBER 2019	

INTERIM REPORT 1 JULY - 30 SEPTEMBER 2019

Third quarter of 2019 (July– September 2019)

- Net Turnover of SEK 23.3 million (SEK 3.8 million)
- Operating Loss/EBIT of SEK -18.7 million (SEK -17 million)
- Result for the period of SEK -20.8 million (SEK -22.9 million)
- Cashflow for the period SEK 23.1 million (SEK 7.1 million)
- Earnings per share amounted to SEK -0.16 (SEK -0.87)
- Diluted earnings per share amounted to SEK -0.11 (SEK -0.87)
- OXE units sold: 70 (4)
- The company will not push to deliver 600+ units for 2019
- New long-term financial objectives for the years 2020-2024
 - EBITDA margin of >25% by the end of 2024;
 - Average Organic Sales growth >50% per year; and
 - Operational cashflow positive no later than 2021.

First nine months of 2019 (January – September 2019)

- Net Turnover of SEK 51 million (SEK 31.5 million)
- Operating Loss/EBIT of SEK -65.3 million (SEK -59.8 million)
- Result for the period of SEK -76.4 million (SEK -77.7 million)
- Cashflow for the period SEK 33.4 million (SEK 34.3 million)
- Earnings per share amounted to SEK -0.91 (SEK -3.06)
- Diluted earnings per share amounted to SEK -0.54 (SEK -3.06)
- OXE units sold: 167 (130)

Significant events in the Third quarter

- Enters into a €14 million credit facility agreement with European Investment Bank ("EIB").
- Appoints Paul Frick as new CFO effective 9th September 2019.
- Obtains Bondholder approval for a waiver in respect to certain terms of up to SEK 200 million.
- Obtains shareholder approval following EGM in respect to issuance of share warrants to EIB for tranche A and B loan drawdown.
- Issue 13,365,367 warrants to EIB relating to tranche A.
- Receives first tranche of €4 million from EIB.
- Incentive program 2019/2022 outcome first 5 million share warrants offered and subscribed fully by certain senior managers.
- Enters into letter of intent with African governmental supplier to supply OXE150s/200s with a total expected revenue of €5 million including accessories, service kits and spare parts.
- Marketing launch of the OXE300 and opening of order books.

Significant events after the reporting period

- Agreed in principle with EIB that second tranche drawdown condition will include a directed issue.
- Received subscription and guarantee commitments for exercise of warrants series 2019:1.
- Received approximately SEK 33.6 million through the exercise of warrants and planed for a directed share issue of approximately SEK 17.2 million.
- The board of directors resolved on a directed share issue of SEK 17.2 million.

COMMENTS BY THE CEO

In the third quarter the company continued with a positive sales development. The company achieved a gross profit of SEK 2.77 million and a gross margin of 12% during the period. This was primarily driven by sales of the OXE200, which has a higher gross margin as well as unit sales directly to an end user at a higher margin. Whilst I expect the trend to continue, the gross margin growth may not be linear.

Following strategic discussions and review, in order to prepare for the future, the company will continue to have a focused approach to developing sales in the shorter term and ensure it maintains delivery of quality to its end users. As a consequence, the company decided not to push for 600+ units for 2019 but instead maintain a steady and sustainable rampup in close collaboration with customers and continue to invest into quality and support to the customers which has given_good results in the last few months. In addition, new updated long term objectives for the years 2020-2024 will be as follows:

- EBITDA margin of >25% by the end of 2024;
- Average Organic Sales growth >50% per year; and
- Operational cashflow positive no later than 2021.

In July we announced the company entered into a €14 million credit facility with the European Investment bank ("EIB"), which over time will help support more aggressive sales and marketing initiatives, finance development projects, operational expenses and working capital needs. This is a very significant endorsement by a well-respected financial institution (backed by EU member states), who carried out detailed due diligence on the company over a twelve-month

period. We received the first tranche of €4 million from EIB in mid-September. Further funding has also been secured following the exercise of share warrants as well as directed share issue totalling SEK 50.8 million in October. If we fulfil certain conditions, this will enable us to draw the second tranche of €4 million from the EIB, most likely during Q1 2020.

With funding secured, we are fully focused on our operational performance. As described in our previous interim report, I now have completed the appointment of my senior management team, following the appointment of Jerry Ojala as Chief Operating Officer (COO) at the end of September. I am highly confident of our senior management team to deliver the full potential of the OXE.

We continue with an immense focus on quality, which includes sourcing parts from Tier 1 automotive suppliers, the meticulously testing of improvements and upgrades by our engineers, assembly improvements and after sales care with our customers. Ultimately quality drives sales and with our disruptive technology, being the only provider of commercial high-powered diesel outboard engines in the world, it is imperative we work closely with the end users and better understand their demands and requirements.

We have been very detailed with our planning of the OXE300 – we officially launched the marketing of this game changing product at the Genoa boat show in September. Start of production of the OXE300 is May 2020 and we expect to have built a significant order book just prior to start of production.

I am confident of meeting our key objectives and delivering commercial success of our patented belt propulsor system.

Myron Mahendra CEO - Cimco Marine AB

OXE units sold	70	4	167	130	157	55

Production

Production was limited to 36 units for the quarter. The company mainly built the OXE200 with a careful ramp.

We have further organised production with UFAB, our assembly partner, to ensure we are sufficiently resourced to meet our production plan for Q4 and beyond. Our main goal is to continue to focus on "zero defects" and ensure we work closely with our customers and maintain a balanced ramp-up.

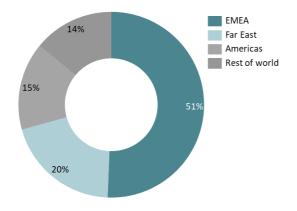

Sales and after sales

Following the introduction of the OXE200 into production, we continue to recruit more sales and after sales staff to support our distributors. The purpose is to provide training, after sales care and to ensure our distributor partners are meeting their minimum obligations. We have noted that certain regions are performing better than others and will focus on those that need further support.

We have developed a total cost ownership tool to be used by distributors that will clearly demonstrate the economic benefit for the end user. This can be tailored for different regions with a different cost/tax base. In the meantime, we continue to work on building our order book as well as several large projects (mainly governmental related). No doubt, the OXE has now validated its "proof of concept", after some challenging initial years, we now clearly see its versatility and economic benefits for our end users. We have just launched the marketing of the OXE300 and are taking orders from our distributors.

The breakdown of units sold by region is as follows:

	Total to Date	Q3 2019	Q2 2019	Q1 2019	FY 2018	FY 2017	FY 2016

Above: Total cost ownership tool, indicating the effective break-even point of substituting from a 200HP petrol outboard to an OXE Diesel 200HP.

Product development

Cimco future is with the new generation of engines powered by BMW. The Bison project which focuses on developing the OXE Diesel 300, is powered by BMW's 6-cylinder bi-turbo diesel engine. The engine is now going through the validation and verification process which will be completed at the end of this year. Production is expected to commence in May 2020.

The company continues to improve the quality and performance of its current engine range – i.e. the OXE125 to OXE200 powered by GM's 2 litre 4-cylinder diesel engine.

Organisation

Cimco has 31 employees at present. The company continues to add qualified and experienced personnel to its team to match its long-term objectives and to provide world class support to its customers.

Future funding requirement

The company secured a credit facility of up to €14 million with the European Investment Bank. All conditions have been met and the first loan tranche of €4 million was drawn in mid-September. Cimco successfully completed the redemption of Share warrants and directed issue totalling SEK 50.8 million in October 2019

FINANCIALS

Operational and financial review

Third guarter 2019 compared to the Third guarter 2018

The Company's income statement for the third quarter 2019 shows a net loss of SEK 20.8 million, against a net loss of SEK 22.9 million in the corresponding period of the previous year. The company sold 70 OXE units compared to the corresponding period of only 4 units. Net turnover was higher at SEK 23.3 million compared to SEK 3.8 million for the corresponding period, mainly due to the increase in units sold.

The company produced gross profit of SEK 2.77 million in the third quarter of 2019 against a gross profit of SEK 119k. The higher gross margin, which amounts to 12% (3%) and is due to the following:

- Higher unit price increase in prices since November 2018
- Improved product mix with an increase in sales of spare parts and accessories
- Certain unit sales direct to an end user at closer to retail price
- Lower unit cost –achieved savings through replacing of expensive components

Operationally, the company has been increasing its marketing activities. R&D activities around the development of the OXE300 is now tailing off as we finalise the verification and validation process – SEK 3.8 million of these costs (in Q3 2019) have been capitalised to intangible assets relative to SEK 8.6 million capitalised in the comparative period of the previous year.

First nine months of 2019 compared to the first nine months of 2018

The Company's income statement for the first nine months 2019 shows a net loss of SEK 76.4 million, against a net loss of SEK 77.7 million in the corresponding period the year before. The company sold more OXE units (167) compared to the corresponding period (130 units) – which is more units sold than the entire calendar year of 2018 (157 units). Net turnover was SEK 51.0 million compared to SEK 31.5 million for the corresponding period of the

previous year. This is mainly due to sales of the OXE200 variants, increased prices of the OXE product range (effected from November 2018) as well as increased sales in spare parts, servicing kits and accessories.

The company's Cost of goods sold (COGS) was SEK 58.6 million compared to SEK 41.6 million for the corresponding period - however the trend in COGS per unit during the first nine months of 2019 has been improving. Other external costs decreased and amounted to SEK 23.1 million (SEK 32 million) whilst personnel costs increased to SEK 21 million (SEK 7.8 million). This was mainly due to employing senior employees from previous consultant positions within the company as well as the capitalisation of SEK 10 million of personnel costs in the corresponding period to Intangible fixed assets (no capitalisation of personnel cost in 2019). Overall the company capitalised SEK 24 million of costs in the first nine months of 2019 to intangible assets relating to development work of the OXE200 and OXE300 (SEK 18 million was capitalised in the corresponding period). Interest expenses is down to SEK 11.1 million (SEK 17.9 million) and this is due to initial financing cost of raising the corporate bond in February and September 2018 as well as lower interest rate (from 10.75% pa down to 7% pa) since February 2019.

Assets

Third guarter 2019 compared to the Third guarter 2018

As of the 30th September 2019, total assets amounted to SEK 289 million (SEK 270 million). The Company's non-current assets at the closing date were SEK 143 million (SEK 120 million), out of which R&D and patents total SEK 137 million (SEK 114 million). The increase relates mainly to product development (in particular the 300hp 'Bison' project).

Inventories relating to parts for production, in course of production and finished goods total SEK 77.8 million (SEK 85.7 million). 27% of stock relates to Opel engine powerhead as we have around 618 units in stock due to meeting our supply agreement obligations. This will be reduced accordingly as we ramp up production from Q3 onwards. We have also completed units that makes up 13% of the stock value.

Receivables from contract works amounted to SEK 26.5 million as of 30th September 2019, in comparison to SEK 10.5 million as of 30th September 2018. The increase reflects extended credit terms offered to customers. The Company had cash and cash equivalents of SEK 38 million (SEK 48 million) at the closing date 30th September 2019.

Equity and liabilities

Third guarter 2019 compared to the Third guarter 2018

Total equity has been reduced to SEK 98 million (SEK 114 million). Even though the company continues to incur losses, it continues to maintain its equity base through equity funding from its shareholders. The non-current liabilities & provisions have increased to SEK 157.7 million (SEK 111.1 million). This is mainly due to the drawdown of the first tranche of €4 million from the EIB in September 2019 and accumulated interest on the corporate bond loan since February 2019.

Current liabilities have reduced to SEK 33.6 million (SEK 44.2 million). This is mainly due to reduction in advance payment to customers as sales have further reduced this liability as well as a reduction in accounts payable.

Cash flow

Third quarter 2019 compared to the Third quarter 2018

Cash flow from operating activities

Cash flow from operations for the period was SEK -21.2 million (SEK -33.4 million). The decline in cash flow from operations is related to support for operational activities and increases in accounts receivable, whilst the decrease in inventories had a favourable effect on working capital. The significant movements within that has been the change in inventory SEK 6.8 million (SEK -20.8 million) and changes in other current receivables of SEK 1.3 million (SEK 8 million).

Cash flow from investing activities

Cash flow from investing in the period was SEK -4.9 million (SEK -12.1 million). This is primarily due to increased investments in intangible fixed assets of SEK -4.4 million (SEK -11.9 million), relating to R&D and patents.

Cash flow from financing activities

Cash flow from financing for the period was SEK 49 million (SEK 53 million). This relates to funding from the EIB in September 2019 whilst the corresponding period relates to a rights issue and corporate bond issuance in September 2018.

First nine months of 2019 compared to the first nine months of 2018

Cash flow from operating activities

Cash flow from operations for the period was SEK -83.3 million (SEK -92.7 million). The decline in cash flow from operations is related to support for operational activities, an increase in the change in accounts receivable, a reduction in trade payable and other current liabilities, whilst inventories has decreased. The significant movements within that has been changes in inventory of SEK 21.1 million (SEK -23.0 million) and changes in trade payables of SEK-15.8 million (SEK 6.9 million). Other current liabilities were reduced by SEK -12.1 million (SEK -0.3 million).

Cash flow from investing activities

Cash flow from investing in the period was SEK -26.9 million (SEK -31.8 million). This is primarily due to increased investments in intangible fixed assets of SEK -25.5 million (SEK -22.5 million), relating to R&D and patents.

Cash flow from financing activities

Cash flow from financing for the period was SEK 143.6 million (SEK 158.8 million). This relates to funding from the rights issue and EIB loan drawdown whilst the comparative period relates to directed and rights share issue and corporate bond issuances.

Financial objectives

Cimco will no longer target sales of 600+units for 2019 and the long term goal of 7 700 units by 2023 will be replaced with the objectives mentioned below. It will continue to aim to meet positive gross margin for Q4 2019. The company focus on long term objectives for the years 2020-2024 is on the following basis:

- EBITDA margin of >25% by the end of 2024;
- Average Organic Sales growth >50% per year; and
- Operational cashflow positive no later than 2021.

Outlook

The Board remains highly optimistic of the future of the company and in meeting its revised longer-term targets and value the step-by-step developments being made, fully supporting the organization and management of the company.

Its financial targets for 2019 and longer-term targets are as follows:

- Gross margin positive during Q4 2019;
- Average Organic Sales growth >50% per year;
- Long term EBITDA margin of >25% by the end of 2024; and
- Operational cashflow positive no later than 2021.

Risks and uncertainties

The Risk and uncertainties of Cimco's business is explained in detail within the risk section of the Company's rights issue prospectus issued in March 2019 – the document is available on the company's website. The main risks facing the company are production risk, technical development risk and financial risk. As explained in this report, Cimco has identified certain risks and uncertainties pertaining to its production capabilities and is confident in containing those issues.

Financial calendar

NOTES

The interim report is unaudited and is drawn up in accordance with the Swedish Annual Accounts Act and BFNAR 2012:1 Annual Reports and consolidated financial statements (K3).

Definition of Key Business Ratios

Net turnover

Main operating revenues, invoiced expenses, side income and revenue adjustments.

Profit/loss after financial items

Profits after financial items and costs, but before taxes.

Equity total

Company's Equity.

Equity/assets ratio (%)

Adjusted equity (equity and untaxed reserves with deductions for deferred tax) as a percent of the balance sheet total. This is to show the company's long-term solvency.

Number of employees

Number of employees at the end of the financial period.

Estimates and judgments

Preparation of financial statements and application of accounting policies, are often based on assessments, estimates and assumptions that is reasonable at the time when the assessment is made. Estimates are based on historical experience and various other factors that are considered to be reasonable under the circumstances. The results of these are used to assess the carrying values of assets and liabilities, which are not otherwise apparent from other sources. The actual outcome may differ from these estimates. Estimates and assumptions are reviewed regularly.

Certified Adviser

FNCA Sweden AB is Certified Adviser for Cimco Marine AB (publ). Contact details to FNCA Sweden AB: tel. +46 8 528 00 399, e-mail info@fnca.se.

Cimco Marine AB (publ) is obligated to make this information public pursuant to the EU Market Abuse Regulation. The information was provided by the contacts above to be submitted for publication on November 15th, 2019, 07:30 CET.

Cimco Marine AB (publ) has, after several years of development, constructed the OXE Diesel, the world's first diesel outboard engine in the high-power segment. OXE Diesel has a unique belt driven propulsion system that allows a hydraulic multi-friction gearbox to be mounted. This means that the engine can handle significantly higher loads than a traditional outboard engine. Cimco's OXE diesel has a horizontally mounted engine as opposed to a traditional outboard with a vertically mounted engine.

All products developed by Cimco Marine AB is built on the core value Endurance by Engineering. The OXE Diesel product line is no exception. Utilizing modern Diesel power-heads from the automotive industry, heavy duty gearbox design and patented belt transmission system provides for robust outboards with inboard features and high torque capacity.
