

OXE125-200 model year 2021 has been granted approval by EPA

Environmental Protection Agency (EPA) has granted OXE125, OXE150, OXE175 and OXE200 approval for 2021 model year.

The OXE Diesel engine series (OXE125-200) by OXE Marine AB (NASDAQ STO: OXE, OTCQX: CMMCF) has been received approval for 2021 model year by the United States Environmental Protection Agency (EPA). In line with OXE Marine's ambition to transform the outboard motor; impacting the journey towards a more sustainable and ecologically positive marine environment, OXE Marine is pleased to achieve the certificate of conformity with the clean air act from EPA.

The OXE Diesel combines the reliability and endurance of marine inboards with the flexibility and agility of outboard engines, offering unprecedented efficiency, range, torque and maneuverability for the commercial marine market.
