

NOBA HOLDING AB (PUBL) PUBLISHES THE ANNUAL REPORT AND THE SUSTAINABILITY REPORT FOR 2023

The reports are available at:

<https://www.noba.bank/investors>

-2023 has been a year characterized by geopolitical uncertainty, high inflation and correspondingly swift interest rate hikes. This has put household economy and adaptability under tough, and new, challenges even though our stable customer base has shown a solid resilience. With a broad product offering in different geographical markets, paired with more than 20 years of experience in leading credit assessments and responsible lending, we have continued to gain market shares. NOBA is today the obvious market leader among specialist banks in the Nordic region, with approximately two million customers and a unique position from a European perspective. The year we are now putting behind us has strengthened my conviction that the market for specialised offerings that cater for people's unique needs will continue to grow, both in terms of size and relevance, says Jacob Lundblad, CEO at NOBA.
