RESOLUTIONS PROPOSED BY THE BOARD

Allocations of the company's results in accordance with the adopted balance sheet (item 9 b)

The Board of Directors of Humana AB proposes that the Annual General Meeting 2026 resolves on a dividend of SEK 64,153,530 divided equally on the total number of shares in the company with SEK 1.35 per share. The dividend corresponds to approximately 27 percent of profit for the year.

The record date for the right to receive dividend is proposed to be set to Monday 11 May 2026 and the payment of the dividend through Euroclear Sweden AB is expected to take place 3 banking days later.

The above amount is based on the number of outstanding shares in the company, which are not held by the company, as of the date of issue of the notice of the Annual General Meeting.

The number of shares held by the company may increase until the record date for dividend and thus reduce the amount of dividend.

Following a decision on a value transfer, SEK 1,530,845,025 remains of the amount available pursuant to Chapter 17, Section 3, first paragraph, of the Swedish Companies Act.

The remaining funds after the dividend, SEK 1,530,845,025, are to be carried forward.

Resolution on approval of remuneration report (item 16)

The Board proposes that the meeting resolves to approve the remuneration report on remunerations in accordance with Chapter 8 Section 53 a of the Swedish Companies Act.

Resolution on issue authorisation (item 17)

The board proposes that the general meeting authorises the board to resolve on issue of shares in accordance with the following.

The board shall be authorised to resolve to issue new shares on one or several occasions during the period up to the next annual general meeting. The issue may take place applying or disapplying shareholder pre-emption rights. On the strength of the authorisation the board may resolve to issue a number of new shares not exceeding ten per cent of the total number of outstanding shares in the company at the time of the general meeting's resolution on the authorisation.

PRESS RELEASE

31 March 2026 12:13:00 CEST

The authorisation includes the right to resolve that shares will be issued against cash payment, payment in kind or payment by way of set-off and the issue may otherwise be subject to conditions as set out in Chapter 2, section 5, second paragraph, 1-3 and 5 of the Companies Act. A cash issue or issue by way of set-off that takes place with disapplication of shareholder pre-emption rights must take place on market terms.

The reason for the proposal and the possibility of disapplying shareholder pre-emption rights is to allow flexibility in conjunction with potential acquisitions or the raising of capital.

The board, or the person appointed by the board, shall be entitled to decide on minor changes to the general meeting's resolution that may be necessary in connection with registration of the resolution with the Swedish Companies Registration Office or due to other formal requirements.

Valid approval of the proposal according to this item requires that shareholders representing a minimum of two-thirds of both the votes cast and the shares represented at the annual general meeting support the resolution.

Resolution on authorisation for the Board to resolve acquisition of own shares (item 18 a)

The board proposes that the general meeting authorises the board to resolve on acquisition of own shares on one or several occasions during the period up to the next annual general meeting in accordance with the following.

1. Acquisition of own shares must be made on Nasdaq Stockholm.
2. Own shares may be acquired to the extent the company's holdings of own shares in total amounts to no more than one-tenth of all shares in the company.
3. Acquisition of own shares on Nasdaq Stockholm shall be made in cash and at a price within the stock market price interval registered at any given time, such interval being the interval between the highest purchase price and the lowest sales price.

The reasons for the proposed authorisation to resolve on acquisition of own shares are to enable a reduction of the company's share capital through cancellation of shares, to be able to improve the company's capital structure, to enable share transfers in accordance with the authorisation resolution for the board to transfer own shares, and to increase the flexibility for the board in connection with potential future corporate acquisitions.

The board, or the person appointed by the board, shall be entitled to decide on minor changes to the authorisation resolution that may be necessary due to formal requirements.

PRESS RELEASE

31 March 2026 12:13:00 CEST

Resolution on authorisation for the Board to resolve on transfer of own shares (item 18 b)

The board proposes that the general meeting authorises the board to resolve on transfer of own shares on one or several occasions during the period up to the next annual general meeting in accordance with the following.

1. Transfer of own shares may be made either on Nasdaq Stockholm or in another manner.
2. Transfer of own shares may be made with disapplication from the shareholders' pre-emption rights.
3. The maximum number of shares that may be transferred is the number of shares held by the company at the time of the board's resolution on the transfer.
4. Transfer of own shares on Nasdaq Stockholm shall be made at a price within the stock market price interval registered at any given time, such interval being the interval between the highest purchase price and the lowest sales price. Transfer of own shares in another manner shall be made at a minimum price that shall be determined in close connection with the share's quoted price at the time of the board's resolution to transfer the shares.
5. Payment for the transferred shares may be made in cash, by contribution in kind or by way set-off.
6. The board is entitled to determine the other terms and conditions of the transfer, which, however, shall be in accordance with market terms.

The reasons for the proposed authorisation to resolve on transfer of own shares and for the disapplication from the shareholders' pre-emption rights are to be able to improve the company's capital structure and to increase the flexibility of the board in connection to potential future corporate acquisitions, by facilitating fast and cost-efficient financing by divesting holdings of own shares.

The board, or the person appointed by the board, shall be entitled to decide on minor changes to the authorisation resolution that may be necessary due to formal requirements.

Valid approval of the proposal according to this item requires that shareholders representing a minimum of two-thirds of both the votes cast and the shares represented at the meeting support the resolution.

Resolution on (a) reduction of the share capital through cancellation of treasury shares, and (b) increase of the share capital through a bonus issue (item 19)

PRESS RELEASE

31 March 2026 12:13:00 CEST

The Board of Directors proposes that the General Meeting resolves on a reduction of the share capital through cancellation of treasury shares and an increase of the share capital through a bonus issue, as set out below.

The resolutions are conditional upon each other, for which reason the Board of Directors proposes that the General Meeting passes a single resolution on the proposals.

A. Reduction of the share capital

The company's share capital shall be reduced as follows.

- The company's share capital shall be reduced by SEK 93 498.
- The reduction shall be effected through the cancellation of 3 786 664 treasury shares, which have been repurchased by the Board of Directors under the authority of authorisations from previous Annual General Meetings.

The purpose of the reduction is to allocate the amount to non-restricted equity. However, the amount shall be restored to the share capital in accordance with item B below.

As a statement pursuant to Chapter 20, Section 13, fourth paragraph of the Swedish Companies Act (2005:551), the Board of Directors may state the following. A resolution to reduce the company's share capital in accordance with this item can be implemented without permission from the Swedish Companies Registration Office (Sw. Bolagsverket) or, in contentious cases, a general court, as the company will simultaneously carry out an increase of the share capital of an equal amount through a bonus issue in accordance with item B. Thus, the company's restricted equity and share capital will remain unchanged.

B. Increase of the share capital through a bonus issue

In order to restore the share capital following the proposed reduction of the share capital as set out above, the share capital shall be increased by a bonus issue of SEK 93 498, through a transfer of SEK 93 498 from the company's non-restricted equity.

The bonus issue shall be carried out without the issuance of new shares.

The CEO shall be authorised to make such minor formal adjustments to the resolution as may prove necessary in connection with registration with the Swedish Companies Registration Office.

For a valid resolution on this item, the proposal must be supported by shareholders representing at least two-thirds of both the votes cast and the shares represented at the Annual General Meeting.
