About Net Insight

Net Insight (Nasdaq: NETI B) helps leading media organizations make live media open, predictable and under control. Its Open Live Media approach combines service intelligence with deterministic transport, processing and trusted interconnection, enabling broadcasters, rights holders, production companies and service providers to operate high-value live services across facilities, managed IP, the internet and cloud.

For more than 25 years, media organizations worldwide have relied on Net Insight's Emmy® Award-winning Nimbra technology for mission-critical live contribution, distribution and production workflows. Today, Net Insight works with hundreds of customers in more than 85 countries, supporting live media from the production edge to some of the world's most demanding media networks.

Net Insight also provides advanced time synchronization for 5G and other critical networks. Its Zyntai solution enables highly accurate, resilient and GNSS-independent synchronization, helping operators strengthen network resilience while reducing deployment complexity and cost.
