

Acconeer appoints Ted Hansson as new CEO to drive sales growth

Acconeer AB (publ) (Ticker: ACCON), a leader in radar sensor technology, announces the appointment of Ted Hansson as its new Chief Executive Officer, effective July 1st, 2024.

Ted Hansson brings extensive experience in driving sales and business growth in the technology sector. Based in Asia, he has over 20 years of experience in managing and scaling global semiconductor business and previously held senior leadership roles at Fingerprint Cards AB, including President of Mobile, PC, and Access China business, and interim group CEO. He has also worked for Ericsson and Samsung Semiconductor. Ted will be based at Acconeer's Malmö headquarters. Ted holds a Master's degree in electrical engineering.

Thomas Rex, Chairman of the Board, commented:

"We are thrilled to welcome Ted to Acconeer. His proven track record in driving sales and expanding market reach in the tech sector makes him the ideal leader for our next growth phase. Ted played a crucial role in establishing Fingerprints as a dominant player in the smartphone market and expanding into laptops. We look forward to his contributions in advancing our strategic goals and enhancing shareholder value."

"I also want to thank Lars Lindell for his enormous contribution over the past 9 years, transforming Acconeer from a startup to a leading player in the industry."

Incoming CEO Ted Hansson stated:

"I am excited and honored to join Acconeer at this pivotal time. Acconeer's innovative radar technology is poised for further deployment across multiple industries. I look forward to working with the talented team to drive sales growth, market expansion, and value for our customers and shareholders."

About Acconeer AB

With ground-breaking technology, Acconeer has developed a radar sensor that opens a new world of interaction. Acconeer Micro Radar Sensor, with low power consumption, high precision, small size and high robustness, is a 60GHz robust and cost-effective sensor for detection, distance measurement, motion detection and camera-supported applications with low power consumption. Acconeer combines the advantage of low power consumption with highly accurate pulsed radar systems of coherent radar, all integrated into a component with a surface area of only 28 mm². The radar sensor can be included in a range of mobile consumer products, from smartphones to wearables, but also in areas such as robots, drones, the Internet of Things, healthcare, automotive, industrial robots and security and monitoring systems. Acconeer is a semiconductor company and, as a business model, sells hardware to manufacturers of consumer electronics products. Acconeer is listed on Nasdaq First North Growth Market with the ticker code ACCON, Redeye is the company's Certified Advisor (CA). For more information: www.acconeer.com.
