

## BIMObject subsidiary Carbonzero secures MSEK 2.5 order for environmental product declarations (EPD)

BIMObject announced today that the company's subsidiary Carbonzero AB has secured an order of SEK 2.5 million for environmental declarations (EPD - Environmental Product Declarations) from a leading Nordic supplier of building materials products. The order concerns the development of environmental declarations on a consulting basis, and is expected to be delivered in 2022 and 2023.

Carbonzero is active in the market for software and services for sustainable construction through the sustainability platform Prodikt ([www.prodikt.com](http://www.prodikt.com)) and the consulting company Eando ([www.eando.se](http://www.eando.se)).

"The market for environmental declarations is growing rapidly, both driven by legislation such as the new law on climate declarations and increased demand for transparency and sustainability from property owners. We will continue to support the market with our services and develop our offering further", comments Rasmus Ekberg, CEO of Carbonzero AB.
