

## Anders Bergtoft Appointed EVP Business Area Telecom at Polarium

***Polarium, a leader in energy storage solutions, is pleased to announce the appointment of Anders Bergtoft as Executive Vice President, Business Area Telecom.***

In his new role, Anders will lead Polarium's telecom division, driving growth, innovation, and customer success in one of the company's most important business areas. He brings extensive experience from leadership roles in the technology and telecom industries, with a strong track record of scaling businesses and delivering customer value globally.

"Anders is joining Polarium at an exciting time as we continue to expand our offering and strengthen our position in the telecom sector," said Leif Ottosson CEO of Polarium. "His leadership and industry expertise will be key in accelerating our growth journey and ensuring that we continue to deliver world-class solutions to our customers."

Commenting on his new role, Anders said: "I am excited to join Polarium and contribute to shaping the future of energy storage in telecom. Polarium's innovative solutions play a crucial role in enabling reliable, sustainable, and cost-efficient energy for telecom operators worldwide. By leveraging energy storage for peak shaving, backup power, and energy cost optimization, we not only secure resilient networks but also accelerate the shift toward renewables. I look forward to working with the team to take this business area to the next level."

Polarium provides energy storage solutions to customers across telecom, commercial, industrial, and residential markets worldwide. With Anders at the helm of Business Area Telecom, Polarium is well-positioned to meet the growing demand for sustainable energy solutions in the global telecom industry.

### **About Polarium**

Polarium is a leading energy storage developer. We make energy storage and optimization solutions built on lithium-ion battery technology for businesses within telecom, commercial, industrial and residential facilities across the world. Polarium was founded in 2015 on the conviction that safe, smart and sustainable energy storage solutions will be key to empower the transition to a truly, sustainable energy future. We are an impact business contributing to the sustainable energy transformation by enabling renewables, electrification and intermittent power supply. Our cutting-edge and easily adaptable modular battery technology enables us to be in the forefront of developing state-of-the-art sustainable energy storage and optimization solutions for today – and tomorrow. Polarium is headquartered in Stockholm, with production in Vietnam, and customers across the world.
