

Diadrom Software Adds Microchip's PIC32CZ CA MCU to Portfolio

Diadrom Software AB, a wholly-owned subsidiary of Diadrom Holding AB (publ), is a leading software company specializing in Autotech Diagnostic, adds the PIC32CZ CA Family of Microcontrollers (MCUs) from Microchip Technology Inc., into its Diadrom Encrypt and Autotech Bootloader portfolio.

Microchip recently introduces the PIC32CZ CA MCU family, their first MCU with an integrated Hardware Security Module (HSM), which ideal for automotive and industrial applications requiring communications encryption, secure boot, authentication, and secure key storage.

"We are excited to collaborate with Microchip and have eagerly anticipated working with a microcontroller unit (MCU) that meets our needs. The PIC32CZ CA MCU family, with its comprehensive features, perfectly aligns with our customers' requirements for secure and reliable electric control unit (ECU) projects."
