

SenzaGen invites to Capital Markets Day in Stockholm on November 10, 2025

Lund, September 18, 2025

SenzaGen is pleased to invite investors and media to its Capital Markets Day on Monday, 10 November 2025, at Sveavägen 20 (9th floor) in Stockholm. Presentations will be available live on site and via webcast.

The event will provide an in-depth overview of SenzaGen's strategic priorities and value-creating initiatives that are driving the company towards profitable growth in non-animal testing. The upcoming strategic period, in turn, lays the foundation for the subsequent phase of the growth journey, enabling scalable and profitable expansion into new markets and product segments – something we will also touch upon during the day.

Presentations will be given by SenzaGen's CEO Peter Nählstedt, together with members of the management team and other experts. All sessions will be held in English, with opportunities for participants to engage both in person and digitally.

A light lunch will be served from 11:30, followed by presentations from 12:15 to approximately 14:30, and concluding with networking over drinks and light refreshments.

Please register your attendance by 31 October 2025 via the following link: <https://forms.office.com/r/9hnFrZ4ZiL>

Please note that on-site seats are limited, and attendance will only be confirmed upon receipt of a confirmation email. The full agenda and additional event details will be published on SenzaGen's website closer to the date and sent digitally to registered participants. Following the event, both the presentation materials and the recording will be accessible on SenzaGen's website.

About us

SenzaGen is a corporate group on its way to becoming a leading player in non-animal testing, driving the shift from animal experiments to methods that more accurately reflect human biology. Leveraging cutting-edge technology, the company offers high-performance non-animal test methods and expert advisory services. These methods are more effective, precise, and cost-efficient than traditional animal-based approaches and contribute to a substantial reduction in the number of laboratory animals used worldwide. SenzaGen's growth strategy focuses on strengthening its position in both established and new markets through direct sales, complementary partnerships, an expanded test portfolio, and recognized thought leadership. The company also maintains a long-term acquisition agenda to accelerate commercial potential. SenzaGen has its headquarters and GLP-certified laboratory in Lund, Sweden, along with subsidiaries in Italy and the USA. For more information, visit www.senzagen.com.

SenzaGen is listed on Nasdaq Stockholm First North (ticker: SENZA). FNCA Sweden AB is the company's Certified Adviser.
