

Indutrade acquires the Swedish technical trading company Ideus

Indutrade has signed an agreement to acquire all shares in the Swedish company Ideus Sweden AB, www.ideusgroup.se, with annual sales of approximately SEK 55 million.

Ideus is a technical trading company specialised in metal components for the engineering industry in Sweden. The company provides customer-specific solutions from prototype to serial production, including quality testing, assembly, and surface treatment. The products are manufactured using various production technologies, including casting, metal injection molding (MIM), forging, powder metallurgy, and machining. Ideus was founded in 1989, has eight employees and is located in Anderstorp, Sweden.

Ideus complements the Indutrade-owned company Techno Skruv AB, a leading technical trading company specialised in customer-specific fasteners and mechanical components.

The closing takes place today and Ideus will be included in Indutrade's Business Area Industrial & Engineering. The acquisition is Indutrade's third in 2025 and is expected to have a marginally positive impact on Indutrade's earnings per share.

About Indutrade

Indutrade is an international technology and industrial business group that today consists of over 200 companies in some 30 countries, mainly in Europe. In a decentralised way, we aim to provide sustainable profitable growth by developing and acquiring successful companies managed by passionate entrepreneurs. Our companies develop, manufacture, and sell components, systems and services with significant technical content in selected niches. Our value-based culture, where people make the difference, has been the foundation of our success since the start in 1978. Indutrade's net sales totalled SEK 32.5 billion in 2024, and the share is listed on Nasdaq Stockholm in Sweden.
