WPTG issue shares to offset debt

Stockholm, Sweden, 2026-02-25 – The board of directors in White Pearl Technology Group AB (WPTG), a Swedish Global Tech Company has, pursuant to the authorization granted by the Annual General Meeting held on 20 May 2025, today resolved share issues of 28,500 shares granted to Acuma Invest AB.

The issue is being carried out to offset an outstanding debt of SEK 456,000 relating to advisory services provided in connection with WPTG's acquisition of Spotr Group AB's subsidiaries Adligo AB, APTR SL AB, Appspotr South Asia (Pvt) Ltd, and Spotr's 51 percent holding in Krobier AB.

In accordance with the parties' agreement, the share subscription price shall be SEK 16 per share. Of the subscription price, SEK 0.022 per share shall be allocated to the share capital and the amount exceeding the quota value shall be allocated to the unrestricted share premium reserve.

Deviation from the shareholders' preferential rights

The purpose of the share issue is to settle the Company's debt to the subscriber through set-off. The Board of Directors has assessed that the share issue is beneficial to the Company and to all shareholders as it reduces the Company's indebtedness and improves the capital structure. The Board therefore considers that the reasons for deviating from the shareholders' pre-emption rights outweigh the reasons supporting the main rule.

Number of shares and share capital

The Company's share capital shall increase by not more than SEK 626.97, from SEK 661,074.07 to not more than SEK 661,701.04.

The number of shares in the Company shall increase by not more than 28,500 shares, from 30,048,873 shares to not more than 30,077,373 shares, entailing a dilution of approximately 0.09 percent of the total number of shares and votes in the Company.
