

Origo hf. – Results of Q1 2022 and Investor meeting about Tempo

Origo hf. will publish the results for Q1 2022 after closing off markets on Wednesday, May 4.

As previously reported, instead of providing conventional investor presentations for the first and third quarters, the company will offer a presentation of specific aspect of the operations. With this Origo is offering investors a better insight into the nature of Origo's business. Investor presentations for the second and fourth quarters will continue to be provided in the traditional manner.

Origo offers investors to join Mark Lorion, CEO of Tempo Software on Thursday, May 5, and learn about how the company and its products have evolved over the past few years. The presentation and discussion will focus on the company's vision for delivering a strategic portfolio management platform for modern product and project teams. This will also highlight the capabilities that the recently acquired businesses, Roadmunk and ALM Works, bring to Tempo's platform.

The meeting will be held at Origo and Tempo offices at Borgartúni 37, 105 Reykjavík.

Registration for the meeting can be found here: <https://www.origo.is/english/investor-presentation>
