

Acconeer signs distribution agreement with Turkish Ansal Component

The agreement concerns Acconeer's radar sensors along with related modules and evaluation kits (EVK) for the Turkish market. Ansal Component provides component supply services to organizations that provide R&D services and produce Electronic Systems in Turkey.

CEO Lars Lindell comments: "The Turkish market is large and strategically important in the region, and we are happy to sign Ansal as our distributor to better access that area."

About Acconeer AB

With ground-breaking technology, Acconeer has developed a radar sensor that opens a new world of interaction. Acconeer Micro Radar Sensor, with low power consumption, high precision, small size and high robustness, is a 60GHz robust and cost-effective sensor for detection, distance measurement, motion detection and camera-supported applications with low power consumption. Acconeer combines the advantage of low power consumption with highly accurate pulsed radar systems of coherent radar, all integrated into a component with a surface area of only 28 mm². The radar sensor can be included in a range of mobile consumer products, from smartphones to wearables, but also in areas such as robots, drones, the Internet of Things, healthcare, automotive, industrial robots and security and monitoring systems. Acconeer is a semiconductor company and, as a business model, sells hardware to manufacturers of consumer electronics products. Acconeer is listed on Nasdaq First North Growth Market with the ticker code ACCON, Redeye is the company's Certified Advisor (CA). For more information: www.acconeer.com.
