

Newbury Pharmaceuticals Secures Generic Approval for Pazopanib Newbury

Newbury Pharmaceuticals is pleased to announce the successful Marketing Authorization (MA) of Pazopanib Newbury tablets in Sweden as the first country in a Scandinavian registration procedure. Approvals in Norway and Denmark are expected to follow upon finalized national reviews.

Pazopanib Newbury is an anti-cancer medication. It is a potent and selective multi-targeted receptor tyrosine kinase inhibitor that blocks tumor growth and inhibits angiogenesis. It is approved to treat renal cell carcinoma and soft tissue sarcoma. Pazopanib Newbury is a generic version of Votrient. The current annual value of the Scandinavian market is estimated to be 4 MEUR according to DLMI Nordic Pharma Insights.

“The successful approval of Pazopanib Newbury highlights Newbury's capability to offer a comprehensive portfolio within oncology. Based on this positive progress, we will proceed to launch this product within respective markets as soon as regulatory exclusivities and patents allow us.” says Mr Lars Minor CEO of Newbury
