

# Trophy Games Opens Pre-registration for Farm Manager

Copenhagen, Denmark - April 30, 2025 - Trophy Games Development A/S (Nasdaq First North GM Copenhagen: TGAMES) is excited to announce that our latest original mobile title, *Farm Manager*, has officially entered pre-registration on both the Apple App Store and Google Play Store.

Acceptance into preregistration - a status reserved for a select few apps - signals not just a major milestone for the game, but a clear vote of confidence in its quality and potential from the world's largest mobile platforms.

## A Deep and Strategic Farming Simulator - Built From the Ground Up

Unlike traditional casual farming games, *Farm Manager* is a **full-fledged simulation experience**, designed from the ground up by Trophy Games as an original IP. The game invites players to **build a vast farming empire**, managing everything from crop cycles and livestock breeding to workforce logistics, financial optimization, and technological upgrades.

It delivers a level of **depth, realism, and "nerdiness"** rarely seen in mobile farming titles - something fans of our Xombat-powered simulation games will instantly recognize and appreciate. If you've enjoyed the in-depth management of games like *Shipping Manager*, *Train Manager*, or *Airline Manager*, you'll feel right at home.

## Strategic Highlights

Launching *Farm Manager* represents a key step in Trophy Games' continued push to lead the market in high-complexity simulation gaming on mobile. Highlights include:

- **Fully original IP** developed internally by Trophy Games
- **Hardcore simulation appeal** with proven player retention models
- **Cross-market potential** for both mid-core and simulation audiences
- **Apple & Google pre-launch approval**, signaling quality and monetization readiness

Being accepted into pre-registration is a notable achievement - only a small fraction of titles are granted this status, making it a strong indicator of platform support and visibility leading up to launch.
