

Maven Wireless signs framework agreement with ONE Nordic and receives first order of SEK 9 million

Maven Wireless Sweden AB (publ) signs a framework agreement with ONE Nordic regarding both DAS systems and repeater products for mobile telephony as well as Public Safety radio systems and associated services. At the same time, a first order is received for mobile phone coverage for an infrastructure project in Sweden, amounting to approximately SEK 9 million.

The agreement is valid indefinitely with rights for the parties to revise prices if costs changes by more than 5%. There are no volume guarantees in the agreement, which can, however, be used for future projects for all ONE Nordic group companies.
