

Acconeer receives order of USD 210,000 for level sensing in Oceania

The order comes from Glyn Limited and relates to Acconeer's A121 Pulsed Coherent Radar sensor and will be used for customers' mass production. Delivery will be done continuously during a year starting from Q4 2026. Glyn is Acconeer's distributor in Australia and New Zealand and has been a partner of Acconeer since 2019.

Michel Roig, Chief Commercial Officer at Acconeer comments: "We are happy to see this order for use in smart cities and IoT applications – reinforcing our confidence in Oceania as a region with strong potential for our technology."

In addition to publicly announced orders, Acconeer continuously receives orders of smaller amounts which are not publicly announced as they are not considered to affect the share price.

About Acconeer AB

With ground-breaking technology, Acconeer has developed a radar sensor that opens a new world of interaction. Acconeer Micro Radar Sensor, with low power consumption, high precision, small size and high robustness, is a 60GHz robust and cost-effective sensor for detection, distance measurement, motion detection and camera-supported applications with low power consumption. Acconeer combines the advantage of low power consumption with highly accurate pulsed radar systems of coherent radar, all integrated into a component with a surface area of only 28 mm². The radar sensor can be included in a range of mobile consumer products, from smartphones to wearables, but also in areas such as robots, drones, the Internet of Things, healthcare, automotive, industrial robots and security and monitoring systems. Acconeer is a semiconductor company and, as a business model, sells hardware to manufacturers of consumer electronics products. Acconeer is listed on Nasdaq First North Growth Market with the ticker code ACCON, Redeye Nordic Growth AB is the company's Certified Advisor (CA). For more information: www.acconeer.com.
