Chordate Medical receives first order from Switzerland worth approximately KSEK 370

Chordate Medical's regulatory partner and distributor in Switzerland and Liechtenstein, Neurolite AG, has made a first order for Ozilia products with an order value of approximately KSEK 370. In connection with the order, Neurolite also announced that the registration of Neurolite as the regulatory representative for Chordate is now complete.

"The registration means that Neurolite can now freely sell Ozilia Migraine in Switzerland and Liechtenstein, and it is of course pleasing that they immediately secured a first order. As I have said before, we see interesting potential for Ozilia in Switzerland and this rapid process leading to a first order is proof of that", says Anders Weilandt, CEO of Chordate.

Chordate added Switzerland as a new focus market for the Ozilia treatment, and signed an agreement with Neurolite AG as distributor and regulatory representative in Switzerland and Liechtenstein earlier in June.
