LIDDS in brief:

LIDDS is a Swedish drug delivery company based on the proprietary technology NanoZolid®. With NanoZolid®, LIDDS can formulate drugs for local administration, with a maintained and controlled release for up to six months. The technology is versatile, can be used across different drug classes and solve problems within many indication areas. LIDDS offers the NanoZolid® technology to partners and has developed its own pipeline focused on oncology, where the technology enables delivery of a local and high drug dose, administered over time with very limited side effects. LIDDS has a broad pipeline with several projects in clinical development, both in early and late-stage development, and projects about to enter clinical phase. The company is listed on Nasdaq First North Growth Market.
