## Goodbye Kansas Studios wins additional order for game trailer from international customer

Goodbye Kansas Studios has received a second order for the production of a game trailer for an international customer and the value of the order amounts to approximately SEK 10 million. The project has started and will run until the second quarter of 2025.

"This is the second order in a short period of time we receive from this customer, with whom we started a collaboration in August. It is gratifying that they already see the value of and appreciate our quality services. Once again, our creative abilities have played a crucial role and paved the way for this order. Our assessment remains that the gaming market is developing in the right direction and has started to recover," says Stefan Danieli, CEO of Goodbye Kansas Group.

Goodbye Kansas Group is currently fully focused on the operations of its subsidiary Goodbye Kansas Studios, a leading provider of technology-driven visual content in a global market.
