

# The contract regarding the delivery of MobiMed to Estonia's entire ambulance fleet has now been signed

**As previously reported, Estonian Health Insurance Fund Haigekassa decided to award Ortivus and Telia Eesti, a contract on the delivery of MobiMed ePR to Estonia's entire ambulance fleet. The contract, with an order value of approximately 26 MSEK, has now been signed. The contract's duration is 5 years with a possible extension of another 5 years. The extension has an additional order value of estimated 26 MSEK.**

We are happy to announce that contract has been signed between Haigekassa, Telia Eesti and Ortivus. Telia Eesti and Ortivus will provide Estonia's nationwide prehospital care with a SaaS (Software as a Service) solution including MobiMed ePR on iOS and integrations to national systems. With the contract signed, the delivery project has now been initiated.

Ortivus will deliver software licenses and Telia Eesti the infrastructure and hardware. Estonia is at the forefront when it comes to e-health and the country have implemented several integrated digital healthcare systems. MobiMed ePR will also be fully integrated with several Estonian healthcare systems, making this one of the most modern and advanced ePR installation delivered so far by Ortivus.

*"The delivery of MobiMed ePR to all ambulances in Estonia is, for Ortivus, a breakthrough on a completely new market. We look forward to delivering a state-of-the-art, national ePR system and to be collaborating with Telia Eesti and Haigekassa to further enhance prehospital care in the country."*  
Says Reidar Gårdebäck, CEO Ortivus

## About Ortivus

---

Ortivus develops and commercialises MobiMed, e-health and medical technology solutions for a safer and more efficient healthcare. The company was founded in 1985 and is today a leading provider of mobile digital solutions for prehospital care, worldwide. Ortivus' innovations are based on in-depth expertise in cardiology as well as decades of development together with users and customers. The company's headquarters are located in Danderyd, Stockholm. The company has, since 1998, a wholly owned subsidiary based in the United Kingdom and since 2022, a wholly owned subsidiary based in Denmark.

MobiMed is a modular platform that connects and enable real-time information sharing throughout the prehospital care chain. It is currently used by over 12,000 paramedics in over 2,700 emergency vehicles. The platform, MobiMed, consists of several product modules that are completely integrated but can also be used stand-alone. MobiMed comprises four main solutions: MobiMed Monitor, that measures, monitors and shares patients' vital parameters and ECG in real-time, MobiMed ePR, - an electronic patient record for decision support, collection of patient data and clinical documentation, MobiMed enRoute, - a tool for navigation and case management, and MobiMed Life - a range of stand-alone defibrillators.

MobiMed saves vital seconds and enable healthcare professionals make the right decisions in critical situations. MobiMed also contributes to improved quality of care and saved resources.

Ortivus Class A and Class B shares are listed on the NASDAQ Stockholm Small Cap list.
