

Berner Industrier has completed the acquisition of Autofric AB

As previously communicated, Berner Industrier entered into an agreement on April 10, 2025 to acquire 100 percent of the shares in Autofric AB including its subsidiaries and has today completed the acquisition. Autofric has a long and successful history of metalworking and custom manufacturing as well as niche products within water treatment. The company was founded in 1984 and has since built up a strong brand where competence, quality and efficiency have been success factors for the company. Turnover in the last financial year amounted to approximately SEK 60 million. "We are today pleased to welcome the entire team of Autofric to Berner Industrier and look forward to continuing to develop the company together with the local management. The acquisition will be included in the Energy & Environment business area as of May 2," says Caroline Reuterskiöld, President and CEO of Berner Industrier.
