

## Inwido's business in Scotland wins landmark contracts worth GBP 50 million

**Inwido's Scottish business unit Sidey Solutions has been awarded two prestigious contracts that will see windows and doors upgraded across 4,149 homes in the Falkirk Council area. Sidey Solutions won 2 out of the 3 projects in a public tender process, and the combined value of GBP 50 million makes this Inwido's largest order to date.**

Sidey Solutions, acquired by Inwido in 2023, is a market leader across social housing refurbishment and public building projects in Scotland. These contracts reinforce Sidey's position as a trusted delivery partner within the social housing sector, with a continued focus on delivering high-quality retrofit and replacement solutions that support local authorities in improving homes and communities for the future. The projects also confirm that social housing is a prioritized area for local authorities, driven by increasing energy efficiency requirements and a need to improve living conditions - trends further reinforced during this past cold and energy-intensive winter. In this context, Sidey Solutions is well positioned with its strong product offering, unique installation capabilities, and solid performance track record.

The two contracts span over five years, with deliveries commencing in July 2026. Inwido's previous largest order also originated from Sidey Solutions, relating to the first phase of a two-part contract in North Lanarkshire valued at approximately GBP 22.5 million, announced in December 2024.

"The two contracts with Falkirk Council are strong proof of the market-leading position of Sidey Solutions," says **Fredrik Mueller**, President and CEO of Inwido, and continues: "They also demonstrate our ability to deliver organic growth in a competitive market, while strengthening our presence in social housing – a segment that is becoming increasingly important. Furthermore, these projects provide a stable, long-term production base that can be handled within Sidey's existing capacity."
