

## **Mycronic receives order for a Precision 80 Evo**

Mycronic AB (publ) has received a replacement order for a Precision 80 Evo from an existing customer in Asia. The order value is in the range of USD 27-30 million. Delivery of the system is planned for the third quarter of 2025.

The Precision 80 Evo mask writer meets the market's requirements regarding complex patterns for display photomasks.

"This order for a Precision 80 Evo is placed within our replacement program, which is an important part of Mycronic's customer offering to support customers through generation shifts in their installed base. With this Precision 80 Evo replacement order, the customer enhances its capacity to produce complex photomasks for the display industry", says Charlott Samuelsson, Sr VP Pattern Generators at Mycronic.

Mycronic's Pattern Generators division provides mask writers and metrology systems for display manufacturing and production of semiconductors.
