

## QUICKBIT COMMENTS INACCURACIES IN DAGENS NYHETER ARTICLE

Earlier today, Dagens Nyheter published an article containing inaccuracies and ambiguities.

First and foremost, no money from 'banned casinos' passes through Quickbit. The headline is incorrect and misleading. Furthermore, Dagens Nyheter confuses 'unlicensed operations' with 'operations that are not licensed in Sweden' when they falsely claim that Quickbit works with unlicensed businesses. Quickbit only works with licensed entities.

Quickbit does not act as a regulatory authority over the business activities of licensed customers. However, Quickbit welcomes any findings regarding licensed businesses wrongly targeting markets and customers they are not licensed for.

Quickbit has informed Dagens Nyheter of all the points mentioned above.

Additionally, the article states that Daniel Sonesson has been CEO of Quickbit since 2021, which is also incorrect. Daniel Sonesson was appointed CEO of Quickbit Group in February 2023.

Finally, Quickbit is not the "party leader's" company. Quickbit is a publicly traded company with nearly 10,000 shareholders.
