

PROLIGHT DIAGNOSTICS SELECTS FLEXMEDICAL SOLUTIONS AS CMO PARTNER

Prolight Diagnostics, developer of the digital point-of-care platform Psyros™, has appointed FlexMedical Solutions (FlexMedical) as its chosen Contract Manufacturing partner for the Psyros™ disposable cartridge.

“The partnership is a major step in the development of the pilot manufacturing capabilities utilizing FlexMedical’s existing fully validated facilities and extensive IVD experience. One of the unique selling points of our technology is the simplicity of the disposable cartridge which also enables outsourcing and a very competitive low cost of goods sold from launch,” said Karl Bullen, COO of Prolight.

“We are delighted at Prolight’s decision to select FlexMedical as manufacturing partner following a robust selection process. The Psyros™ technology combines exceptional performance levels with a design fit for efficient, scalable manufacture,” said Kevin Fallon, CEO of FlexMedical.

Situated near Edinburgh Scotland, FlexMedical is a specialist contract manufacturer focused on the supply of disposable components for point of care IVD systems. FlexMedical is certified to ISO 13485 for the Development and Manufacturing of Medical Devices.

About Us

Prolight Diagnostics AB develops innovative Point-of-Care (POC) systems. These are small, portable instruments and disposable cartridges for performing in-vitro diagnostic (IVD) tests from a drop of blood.

We want to offer the foremost POC systems on the market for quick, reliable diagnosis of acute events. Our launch product will be for the measurement of troponin, to aid in the rule-in and rule-out of myocardial infarction.

The company’s share is traded on the NGM Nordic SME marketplace, under the ticker PRLD.
