About Expres2ion

Expres2ion is a biotechnology company that develops innovative vaccines for a healthier world. We want to transform healthcare by developing novel vaccines, that are life-saving and improving quality of life across the world. Expres2ion has developed the unique human clinical Phase III-validated technology platform, Expres2™, for fast and efficient development and production of the active material in vaccines. The platform, under the brand GlycoX-S2™, includes functionally modified glycosylation variants for enhanced immunogenicity and pharmacokinetics. Since 2010, Expres2ion has produced more than 500 proteins and virus-like particles (VLPs) in collaboration with leading research institutions and companies. Expres2ion develops novel VLP based vaccines in association with AdaptVac ApS, of which Expres2ion owns 34%. Expres2ion Biotech AB is listed on Nasdaq First North Growth Market.
