About Surgical Science Sweden AB (publ)

One of the biggest challenges within healthcare globally is reducing injuries incurred during care. Medical education and training are key, especially as a large part of the training can now be performed outside the operating room. Surgical Science is a world leader in the development of virtual reality simulators for evidence-based training. The simulators enable surgeons and other medical specialists to train and improve their psycho-motor skills and instrument handling before entering the clinical environment. Alongside its own products, Surgical Science works with simulation solutions for medical device companies that develop instruments for clinical use, such as robotic surgery.

Surgical Science has approximately 260 employees. The company is headquartered in Gothenburg, Sweden and also has operations in Tel Aviv, Israel, as well as in Stockholm, Sweden and in Seattle and Cleveland, US. Through sales offices in the US and China as well as a global network of distributors, Surgical Science maintains a presence in most markets. Shares in Surgical Science Sweden AB (publ) are traded on Nasdaq First North Growth Market. Certified Adviser is Carnegie Investment Bank AB (publ).
