

## Realfiction engages Grant Thornton as financial advisor to support strategic review

**Realfiction Holding AB (“Realfiction” or the “Company”) today announces that it has engaged Grant Thornton as financial advisor in connection with the strategic review process previously announced by the Company.**

The strategic review aims to evaluate a range of alternatives to accelerate the commercialisation of Realfiction’s Directional Pixel Technology (DPT). These alternatives may include strategic partnerships, licensing arrangements, or other transaction structures involving the Company’s technology platform.

Grant Thornton will support Realfiction in conducting a structured process to identify and evaluate relevant strategic and financial counterparties and to assess potential transaction opportunities that could support the continued development and commercialisation of the Company’s technology.

“We continue to see interest in the commercial potential of our technology. In certain situations, potential partners may prefer structures where they take a more active role in driving the commercialisation process,” says Realfiction CEO Clas Dyrholm. “By engaging Grant Thornton, we can run a structured and professional process to evaluate strategic alternatives and determine the path that best supports the realisation of the technology’s commercial potential.”

Realfiction will provide updates to the market when there is further information that is appropriate to disclose.

**About Realfiction Holding AB**

Founded in Denmark in 2008, Realfiction is a provider of cutting-edge 3D display technologies designed for tomorrow's needs, featuring technological breakthroughs with its Directional Pixel Technology for LCD, OLED and microLED. These technologies support a wide range of use cases, including enhancing driving safety, medical imaging, immersive gaming and entertainment, digital signage, as well as applications in architecture, engineering, and design. The Company offers a comprehensive intellectual property portfolio tailored for OEMs and Tier-1 partners involved in developing and marketing displays for markets and industries requiring high-resolution multistereoscopic displays. All technologies are ready for licensing, and Realfiction is actively pursuing commercial licensing agreements and partnerships to pave the way to mass production. Realfiction's IP portfolio comprises 15 patent families and registered trademarks, including patent applications filed in multiple countries. Realfiction Holding AB's shares are publicly traded on Nasdaq Stockholm First North under the symbol "REALFI", with the share's ISIN code being SE0009920994.
