

Second ICORES® patent granted in the United States

United States Patent and Trademark Office has announced the intention to grant a patent (Notice of Allowance) regarding Iconovo's inhalation device, ICORES.

Iconovo has previously granted ICORES patents in USA, Sweden, Europe (EPO), Japan and China. The new patent covers the technology used in many of Iconovo's projects like generic Symbicort®.

"This new patent demonstrates how unique and innovative ICORES is. With two granted patents in the USA, we now have a very strong position on the American market. Our broad international patent protection allows us to intensify our global business development effort", says CTO Dr. Orest Lastow.

About Iconovo

Iconovo was founded in 2013 by people with long experience in inhalation development. The company develops inhalers and associated drug preparations that are used to treat asthma and COPD. However, Iconovo also has the competence to develop products for new types of inhaled drugs such as vaccines.

By working with Iconovo, pharmaceutical companies and generic companies can access a complete pharmaceutical product, thereby eliminating the complex and costly early stages of the development phase. Iconovo licenses its patented products to customers and offers a faster way to the inhalation market with lower risk and at a lower cost.

More information about the company can be found at www.iconovo.se.

Iconovo is based in Lund and its share (ticker ICO) is listed on Nasdaq First North Growth Market, Stockholm since April 6, 2018. The Company's Certified Adviser is Erik Penser Bank AB, Box 7405, SE-103 91 Stockholm, phone +46 8 463 80 00, email: certifiedadviser@penser.se.
