

Indutrade acquires flow technology company ETS

Indutrade has signed an agreement to acquire all shares in the Dutch company European Techsupply B.V., www.ets-bv.com, with annual sales of approximately EUR 7 million (SEK 75 million).

ETS is a technical trading company specialised in components for the repair and maintenance of vessels. The company offers a wide range of flow components, including valves, hoses, gaskets and fittings, complemented by customised solutions and aftermarket services. Customers include owners of vessels and shipyards operating in the inland shipping, dredging and offshore sectors.

ETS was founded in 2016, has 9 employees and is located in Ridderkerk, The Netherlands. The company has strong expertise in its niche and a proven track record of sustainable profitable growth.

The closing took place on 4 november and ETS will be included in Indutrade's Business Area Process, Energy & Water. The acquisition is Indutrade's eleventh in 2025 and is expected to have a marginally positive impact on Indutrade's earnings per share.

About Indutrade

Indutrade is an international technology and industrial business group that today consists of over 215 companies in some 30 countries, mainly in Europe. In a decentralised way, we aim to provide sustainable profitable growth by developing and acquiring successful companies managed by passionate entrepreneurs. Our companies develop, manufacture, and sell components, systems and services with significant technical content in selected niches. Our value-based culture, where people make the difference, has been the foundation of our success since the start in 1978. Indutrade's net sales totalled SEK 32.5 billion in 2024, and the share is listed on Nasdaq Stockholm in Sweden.
