

## Obducat receives purchase orders for Foundry Services from a customer in the US valued at 1.8 MSEK

**OBUDUCAT AB (publ) subsidiary Obducat Technologies AB, a leading supplier of lithography solutions based on nanoimprint lithography (NIL), has received a purchase order from a customer in the US for the delivery of prototype components. The order value amounts to approximately SEK 1.8 million.**

The customer, which is a spin-off from a university customer to Obducat, has used an Obducat Eitre 3 system for the development of a photonic component. The customer is now entering the commercialization phase, and the first components will be used in evaluation with potential end customers.

The project includes the production of the first prototype series and delivery is expected to take place no later than the first quarter of 2026. In the event of a successful implementation of the project as well as the customer's commercialization, there is a potential that the customer will need larger volumes, which means the potential for continuous production assignments for Obducat. Further information cannot be disclosed at this point due to confidentiality requirements.

*This information is information that Obducat is obliged to make public pursuant to the EU Market Abuse Regulation. The information was submitted for publication, through the agency of the contact persons set out above, at 2025-08-12 08:30 CEST.*

### **About Obducat AB (publ)**

Obducat AB (publ) is an innovative developer and supplier of technologies, products and processes used for the production and replication of advanced micro and nano structures. Obducat's products and services serve the demands of customers worldwide within the LED and Display, Optics and Photonics, MEMS and Sensor industries as well as in High Power and High Frequency electronics and Biomedical Devices. Obducat's technologies include nano imprint technology, resist- and wet processing technologies. Obducat has its own market presence in Sweden, Germany, Japan, USA, England, Portugal and China and the headquarter is located in Lund, Sweden. Obducat is a public company. The Obducat share is traded on the Swedish NGM Main Regulated Equity exchange.
