

ZignSec signs customer agreement with the world's largest wine marketplace

ZignSec has signed an agreement with the world's largest wine marketplace platform, which serves over 65 million users. The agreement enables the marketplace to verify its customers' age in Denmark, ensuring compliance with new Danish regulations that require age verification through identity verification before purchase.

The collaboration also provides the opportunity to expand the age verification process across the Nordics and globally, enabling the marketplace to adapt to future regulations and take a proactive approach going forward.

"We're proud to partner with such a leading global marketplace. This collaboration shows how eCommerce companies can effectively use our identity solutions for age verification, fostering mutual growth and success." - Glenn Mac Donald, CEO.
