

Agne Ahlenius

The new Managing Director of Tungsten San Juan S.L. from July 2025

Agne is a senior mining executive with more than 35 years of international experience in mine development and operations. He has held top-level positions in leading Swedish and Spanish mining operations, including roles such as Mine Manager at Boliden AB, Operations Manager for MATSA in Spain, and CEO at Lundin Mining for Zinkgruvan Mining AB in Sweden. He holds a Master of Science in Mining Engineering from Luleå University of Technology, Sweden.

Most recently, Mr. Ahlenius served as COO and later CEO of the Barruecopardo mine in Spain, a benchmark for responsible and sustainable mining practices within the EU. Apart from speaking Swedish, English and German, he is fluent in Spanish and has vast experience working with the administrations at different levels in Spain.

His proven track record across both underground and open-pit mines, his outstanding reputation as a leader in sustainable mining, and his deep knowledge of the administrative procedures in Spain will be pivotal to the success of the San Juan wolfram mine.
