

## Maven Wireless receives extension of framework agreement with ÖBB worth SEK 100 million

Maven Wireless Sweden AB (publ) has been granted an extended framework agreement with the Transport Administration in Austria regarding equipment and software for radio coverage in train tunnels. The updated framework agreement is extended for another 2 years and is valid until 31 October 2027.

With the current plan and estimated future orders including price adjustments, this extension is worth approximately SEK 100 million for products for the Austrian train tunnels.

"I am very pleased with our good cooperation with our local partner Tomek and ÖBB, where we have delivered the market's best system for tunnel coverage for almost 5 years and had the opportunity to deepen our relationships with Tomek and ÖBB in Austria. We look forward to continuing to deliver cutting-edge solutions for both mobile telephony and critical communications and continue with close technology and business collaboration." says Fredrik Ekström, CEO of Maven Wireless.
