

# Coala Life November monthly KPI's USA

KPI's November 2022:

- Patients in RPM as of November 30, 2022: 3,100
- Annual revenue rate as of November 30, 2022: 3.2 MUSD

Explanations of KPI's

Patients in RPM as of November 30, 2022 – Number of patients that the company monitors in USA at the end of November.

Annual revenue rate as of November 30, 2022 – Estimated recurring revenue in USD based on November month's revenue, measured at an annual rate.

Comments of KPI's November 2022

The fact that the number of patients increased without affecting billing to the same extent is explained by the fact that most of the new patients joined the service at the end of the month. The monitoring of these patients started at the end of the month and therefore could not be charged in November.

Furthermore, the American holiday Thanksgiving fell at the end of November and the company had fewer days available to admit new patients.

*The figures in this press release are preliminary and unaudited.*

## About us

---

Coala-Life Group AB ("Coala Life" or the "Company") founded in 2015, is a Cloud Based Software as a Service provider, and medical device developer and reseller, listed on Nasdaq First North Growth Market. The Company focuses on B2B solutions for managed Remote Patient Monitoring ("RPM"), offering medical care providers, primarily in the US, with a highly scalable, cost-efficient platform to remotely and virtually manage large volumes of patients suffering from chronic diseases. The company offers care providers a comprehensive solution and lifts the administrative work from the care providers regarding, amongst other things, follow-up, 24/7 monitoring, as well as the reimbursement process from state and private health insurance companies. Patients are monitored long-term in everyday life and typically have diabetes, obesity, and /or cardiovascular disease.
