Cary Group is proud to announce the acquisition of Autoklinik

Cary Group has acquired 90 percent of Autoklinik i Malmö AB, “Autoklinik”, an auto service and body repair workshop in Malmö. Autoklinik was founded in 1983 by the Radomski family and has been in the family’s ownership since. Autoklinik specialises in auto service, body repair and paint for several car brands. They are an authorized service and repair workshop for Hyundai, Honda, Fiat, Subaru and Isuzu and specialized damage repair partner for Bentley and McLaren, which are advanced cars that require great knowledge and skills from the technician. Autoklinik is also an approved body shop for Tesla cars.

“We are very happy to welcome Autoklinik to the Cary Group family. This is our first workshop in Sweden specialised in auto body repair and service and will serve as a great compliment to our vehicle glass replacement and repair business. The broadening of our service offering is part of our growth agenda in the Nordic Region. We are very happy that Robert Radomski, from the founder family, keeps a 10% share of the company and we are looking forward to continuing to develop Autoklinik together with him”, says Mats Green, Regional Head of Nordics at Cary Group.

Autoklinik has 30 employees, primarily body repair technicians and paint workers. In 2020 Autoklinik’s net sales attained approximately 38 MSEK.

With the acquisition, Cary Group is expanding its offering in Sweden. In March 2021 Cary Group acquired the Danish company Crashpoint A/S, which specializes in body repair and paint and is an approved body shop for Tesla, as a complement to Cary Group’s existing Danish business.
