

## Klappir hf.: Klappir Appoints Bergs Securities as Certified Adviser for a planned Nasdaq First North Listing Application

Klappir Green Solutions hf. (“**Klappir**” or the “**Company**”), has entered into an agreement with Bergs Securities AB (“**Bergs Securities**”) to act as its Certified Adviser in connection with the Company’s planned listing on Nasdaq First North Growth Market (“**First North**”).

The appointment marks an important step in Klappir’s preparation for the planned application to be admitted to trading on First North, a multilateral trading facility operated by Nasdaq Stockholm. Under the agreement, Bergs Securities will support Klappir throughout the listing process, including reviewing the Company description, preparing and submitting the listing application, coordinating with Nasdaq, and advising on regulatory compliance and communication requirements related to the listing process in accordance with its obligations under the Nasdaq First North Rulebook.

“We are pleased to partner with Bergs Securities as our Certified Adviser as we advance our planned listing process,” said Þorsteinn Svanur Jónsson, CEO of Klappir. “Their experience and understanding of the First North market will be instrumental as we take this important step in our growth journey.”

As part of the engagement, Klappir will work closely with Bergs Securities to ensure full compliance with Nasdaq First North’s Rulebook, including ongoing disclosure obligations and listing requirements.

Bergs Securities will act as a key liaison between Klappir and Nasdaq Stockholm during the listing process and will provide guidance to ensure that the Company meets all admission criteria and maintains high standards of transparency and governance.

“Klappir operates in a rapidly growing sector driven by increasing global emphasis on sustainability and resource management,” said Rutger Ahlerup, Head of Certified Adviser at Bergs Securities. “We look forward to supporting the Company in its listing process and future development as a publicly traded company.”

The agreement is effective upon signing, with Klappir intending to proceed with its planned application to Nasdaq Stockholm, the listing process is subject to customary regulatory approvals and market conditions.

### **About Klappir Green Solutions**

Klappir provides a scalable SaaS platform that enables organisations to collect, structure, and utilise resource data in a consistent and actionable way, addressing the growing global demand for resource efficiency, regulatory requirements and increasing data transparency. Built on a proprietary canonical data model, the platform standardises how resource data is governed and shared, allowing customers to improve data quality, streamline reporting, optimise operations, and connect seamlessly with external stakeholders and data ecosystems. Positioned as a domain-specific data infrastructure provider, Klappir combines Product-Led Growth, Partner-Led distribution, and ecosystem integration to drive efficient customer acquisition, scalable international expansion, and strong operating leverage, targeting a broad and expanding market of organisations seeking to manage and monetise high-quality sustainability and resource data.
