HACKSAW GAMING DEBUTS IN LEBANON WITH BETARABIA

Hacksaw Gaming has partnered with BetArabia to bring its signature slot titles to players in Lebanon, marking its debut in the country's locally licensed online gaming market.

BetArabia is Lebanon's first and only licensed online gaming platform, operating under a licence issued by the Lebanese Ministry of Finance in 2022. The launch gives Hacksaw Gaming an early foothold in a recently locally licensed market.

Launched in November 2022, BetArabia extends the legacy of Casino du Liban into the digital space. Backed by one of the country's most recognised gaming institutions, the platform blends decades of land-based experience with a modern online offering, including sports betting, casino, live casino and poker across web and mobile.

Marcus Cordes, Operational CEO of Hacksaw Gaming:

"Launching in Lebanon for the first time is an exciting step for Hacksaw, and we're pleased to partner with BetArabia as the country's only licensed online operator. It's a unique setup, and one that gives us the opportunity to bring our signature titles to a new audience."

The launch marks another step in Hacksaw Gaming's international growth and ability to follow customers across their priorities markets worldwide.
