# **COMMENTS FROM THE CEO**

# **Application for clinical trial with TOL2 submitted**

In the third quarter of 2024, we completed the extensive clinical trial application for the use of our drug candidate TOL2 in patients with myasthenia gravis and shortly after the end of the period, on October 2, we were pleased to submit the application online via the European Medicines Agency's (EMA's) CTIS portal. In the coming quarter, the Agency will review the application before an approval decision.

The planned clinical trial, which is a placebo-controlled multicenter study with participating clinics in Sweden, Denmark and Germany, is divided into two parts. In the first part, patients with myasthenia gravis will each receive a single dose of TOL2 in gradually increasing doses. In the second part, patients will receive repeated treatment with TOL2 for just under two weeks at gradually increasing

doses. The study is designed to evaluate safety and tolerability and to obtain preliminary efficacy data.

In order to strengthen Toleranzia's financial base before the start of the study, we are implementing the TO4 warrant program in October, which, if fully subscribed, can provide the Company with just over SEK 43 million before issue costs. At the end of August, we were very pleased to announce that the Company received subscription commitments from Flerie Invest AB and Zonda Partners AB as well as the Company's CEO and board members for a total value of approximately SEK 30.9 million, corresponding to 71.14 percent of the total issue proceeds. With the strong support provided by the subscription commitments, we hope, despite a tough market climate, to achieve a very good result in TO4.

During the summer, the Company appointed Ann-Sofie Taube as CFO on an interim basis, during our regular CFO's leave of absence. Ann-Sofie has more than 30 years of experience as a CFO, business controller and financial advisor in various businesses and industries with solid experience in financial management and business development.

In terms of operations, the work of scaling up the formulation process continues for the manufacture of the approximately 3000 packages of sterile, freeze-dried TOL2 of GMP quality needed for the clinical study. During the period we have successfully produced a large-scale test batch of about 700 finished freeze-dried packages that will be used, among other things, to determine the shelf life of the drug product. Further, during the period, Toleranzia has also built up the chain of resources necessary for the implementation of the multicenter study as well as for labeling, storage and distribution of the lyophilized drug product.

All in all, Toleranzia has during the quarter completed several important steps to be able to start the first study in myasthenia gravis patients with the company's potentially groundbreaking treatment, and during the last quarter of the year we look forward with excitement to the response from the EMA, regarding our clinical trial application.

# **ABOUT TOLERANZIA**

#### **General information about the business**

Toleranzia AB (publ) (556877-2866) is a Swedish biotechnology company listed on Nasdaq First North. The company develops drugs that harness the power of the immune system to treat rare autoimmune diseases. The drugs, which target the cause of the disease, can alleviate or cure the disease and not, like current treatments, just reduce the symptoms. They have the potential to be the first long-acting or curative treatments that act specifically on the underlying cause of the rare autoimmune disease they are developed for. Toleranzia's main focus is the autoimmune nerve and muscle disease myasthenia gravis, for which the Company is developing the drug candidate TOL2. In addition, Toleranzia is working on the autoimmune blood vessel disease ANCA vasculitis, for which the Company is developing the drug candidate TOL3. Both diseases are so-called rare diseases where so-called orphan drugs can be developed and where there is a great medical need and a large market potential. For further information, please visit: <a href="https://www.toleranzia.se">www.toleranzia.se</a>.

#### **Company structure and shareholding**

Toleranzia does not have any subsidiaries. Flerie Invest AB owns more than 50% of the shares, which means that Toleranzia is a subsidiary of Flerie Invest AB. The company owns no shares.
