

Swedish consultancy Revelopment joins XPartners

XPartners continues to grow in Sweden and now welcomes Revelopment to the group. The acquisition strengthens XPartners' offering within tenant advisory, with a focus on retail and commercial real estate. Revelopment brings extensive experience in lease negotiations, retail expansion, and construction management, as well as specialist expertise in healthcare facilities – an area in which the company has successfully expanded in recent years.

Founded in 2010 and headquartered in Gothenburg, Revelopment employs just over ten people. The company operates through two divisions: Revelopment Consulting, which provides services in lease administration, negotiations, new store openings, and closures, with a high share of recurring revenue from ongoing management and renegotiation of lease contracts; and Revelopment Construction, which specializes in construction and project management within commercial real estate and healthcare facilities.

"Revelopment adds unique expertise in retail and property-related project management. Their experience and strong client relationships make them a valuable addition to our group," says **Magnus Trollius**, Managing Director of XPartners Sweden.

Since its founding, Revelopment has completed more than 300 construction projects, 500 new store openings, and 1,000 lease negotiations. Its clients include both private and public organizations, where the company has built long-term partnerships that form the foundation of its business.

"We look forward to continuing our journey together with XPartners. Becoming part of the group gives us new opportunities for development and collaboration with other specialist companies in the network," says **John H. Larsson**, CEO of Revelopment.
