

NAVENTUS PUBLISHES UPDATED ANALYSIS OF INSPLORION FOLLOWING THE RELEASE OF THE COMPANY'S Q3-REPORT AND STRATEGIC FOCUS ON HYDROGEN

With enhanced focus on the company's hydrogen business, we commence a new perspective and analytical monitoring with a scenario-based fair value range of SEK 6 – 14 per share, and a base scenario of SEK 9 per share. We deem the shift towards hydrogen sensors and applications to be a promising strategy to focus on, providing increased capital allocation efficiency.
