

Intellego's Net Revenue Exceeds 70 million SEK in Q3-2024

Intellego's net revenue surpassed 70 million SEK during the third quarter of 2024, marking an increase of over 60 percent compared to Q3 2023.

Going forward, Intellego will report net revenue figures shortly after the end of each quarter. No additional financial data will be disclosed until the publication of the complete quarterly report. This net revenue result indicates that Intellego remains on track to achieve its previously communicated financial targets for 2024. This figure is preliminary, and the full Q3 report will be published on November 28.

About Us

Intellego Technologies develops and manufactures color indicators that show the effect of irradiation with, among other things, invisible ultraviolet light, UV light. Color indicators are used globally in, for example, the disinfection industry, the sunscreen industry, and the manufacturing industry. Intellego's indicators have been developed from the company's patented photochromic ink, which can be adapted to different wavelengths of light and various application areas across a range of different industries. Intellego Technologies was founded in 2011, is headquartered in Stockholm, and is listed on the Nasdaq First North Growth Market.

The company's Certified Adviser on the Nasdaq First North Growth Market Stockholm is Carnegie Investment Bank AB (publ).
