

## Maven Wireless receives 10 MSEK order from system integrator in Singapore

Maven Wireless has received an order worth approximately 10 MSEK from Mozark Pte Ltd a system integrator in Singapore. The order will be delivered and billed during first half of 2022.

The order include a Maven Stratus High Power DAS system to provide radio communications for both emergency services but also mobile telephony coverage for Marina Bay Sands in Singapore. The system contains the latest 5G technology with MIMO functionality to maximize capacity on the 3.5 GHz band.

“Countries in Asia are at the forefront of the 5G expansion for indoor coverage and this order is further proof that we meet the market’s new requirements for 5G technology for indoor coverage that supports all operators. It is extra exciting to deliver a system that combines older mobile technologies and advanced 5G as well as the rescue service’s frequencies to be able to maximize the experience and security for guests and visitors in the iconic building Marina Bay Sands in Singapore” said Fredrik Ekström, CEO of Maven Wireless.
