

# CLIMEON'S HEATPOWER 300 AWARDED SEATRADE CRUISE PRODUCT OF THE YEAR

PRESS  
RELEASE

**Climeon's recently launched HeatPower 300 Marine has been selected as Product of the Year at the Seatrade Cruise Awards 2022. The Seatrade Cruise Awards celebrates industry-leaders shaping the future of the cruise industry and Climeon was recognized by a panel of industry experts for its technological innovation in support of a sustainable, energy efficient cruise industry.**

Climeon's waste heat recovery (WHR) technology reduces fuel consumption, decreases CO2 emissions and delivers both financial and environmental savings, thus enabling shipowners to enhance EEXI, CII and EEDI ratings. The HeatPower 300 Marine builds on the success of Climeon's proven HP150 system and amplifies the potential of maritime WHR. Designed for larger vessels, HeatPower 300 Marine is ideally suited to the design, specs and operational profiles of today's cruise ships.

*"We are thrilled to be recognized by Seatrade Cruise for the impact and potential that our HeatPower 300 Marine product has for the cruise industry. It is encouraging to see such a strong effort to support sustainable solutions for the cruise industry and we're humbled to receive this prestigious award amongst our esteemed group of peers."*

*Fredrik Thoren, Executive Vice President, Head of Marine, Climeon*

#### About Climeon AB (publ)

Climeon is a Swedish product company within energy technology. The company's unique technology for thermal power - Heat Power - makes accessible a largely unused energy source and provides sustainable electricity from hot water, around the clock, all year round. Heat Power is a cheap and renewable energy source with the potential to replace much of the energy that today comes from coal, nuclear power, oil and gas. The B share is listed on the Nasdaq First North Premier Growth Market. FNCA Sweden AB is a Certified Adviser, +46 (0) 8-528 00 399 [info@fnca.se](mailto:info@fnca.se).
